

TIP Transportation Improvement Program (TIP)

This is a planning and programming document that indicates how federal funds will be used in the Albuquerque Metropolitan Planning Area (AMPA).

- [AMPA Map \(JPG \)](#)
- [AMPA Map \(PDF \)](#)

TIPs must include all transportation projects that will receive federal highway and transit funds, and all transportation projects considered regionally significant regardless of fund source. All projects in a TIP must be consistent with the long-range transportation plan for the area (the [Metropolitan Transportation Plan](#)). TIPs must be fiscally constrained so the total amount programmed is based on estimates of funding “reasonably expected to be available.”

According to federal regulation, TIPs must cover a period of at least four years and be updated at least every four years. The AMPA TIP spans six years and is updated every two years, with periodic revisions made when necessary.

In Albuquerque, the TIP and its amendments must be approved by the [Metropolitan Transportation Board \(MTB\)](#) of the Mid-Region Council of Governments (MRCOG). Once approved, it is incorporated into the

[Statewide Transportation Improvement Program](#)

The current AMPA TIP covers Fiscal Years 2010-2015. Each fiscal year runs from October 1st through September 30th.

ARRA Projects in the TIP (Economic Recovery)

The Albuquerque Metropolitan Area TIP includes several surface transportation projects funded with ARRA (American Recovery and Reinvestment Act of 2009) funds. For a summary of ARRA projects in the Albuquerque TIP, [please click here](#). Refer to the individual project summaries in the TIP for more detailed project information.
